MAPPING KEY YOUTH ORGANIZATIONS

Migrant and refugee Youth COMMunication and advocacy for equity and inclusion

INTRODUCTION

Following the Task 2.1 of the Work Package 2, JEF leads the present mapping of key youth organizations with the participations of all the project partners. The aim of this task 2.1 was to establish a beneficiary list of key youth organizations working in the field of migrant and refugee inclusion (or desired interested in this field).

The list includes a larger number of organizations in the 5 countries where there are project partners (Ireland, Belgium, Spain, France, Romania and Cyprus) but also include at least one organization in each EU country.

This is an initial mapping done was intended to prepare the project but will be updated in the lifetime of the project. For that reason, this report is produced by CARDET as a deliverable to upload to the Fundings & Tender Portal (Deliverable 2.1), but it can be found in a running spreadsheet format in this address:

https://docs.google.com/spreadsheets/d/1HV_T1zJ7mjXw0la1OTIJOc4gLEMxiTq2WUaDyVb5Uqg/edit?usp=sharing

A total of 157 organizations that work with migrant and refugee issues have been mapped. Three levels of classification have been established as a measure to collect and include as many youth organizations as possible.

- In the first place, INGO¹s that are members of the European Youth Forum and that might have an interest in the project due to prior projects related to the topic have been mapped.
- In addition to these organizations, National Youth Councils have also been included in the map as all of them have prior experience with working and developing projects.

¹ INGO: An **international non-governmental organization (INGO)** is an organization which is independent of government involvement and extends the concept of a [non-governmental organization \(NGO\)](#) to an international scope. The **European Convention on the Recognition of the Legal Personality of International Non-Governmental Organisations** is an international treaty that sets the legal basis for the existence and work of [international non-governmental organizations](#) in Europe. It was adopted by the member states of the [Council of Europe](#), meeting at [Strasbourg](#) on 24 April 1986. It entered into force on 1 January 1991; signatory states were Austria, Belgium, France, Greece, Portugal, Slovenia, Switzerland and the United Kingdom

- Lastly, and making the biggest part of the list, local NGOs that have a more specific focus on migrant and refugee issues have been included in the mapping.

In this sense, a broader approach to the concept of youth organizations has been followed. Finding organizations that exclusively focus on young people limits the reach of our programme. In this way, organizations that focus on migrant and refugees' issues in a broader sense have been targeted as well, since MYCOMM could entail a new possibility for them to start working more closely with youth. On top of that, a more inclusive definition to "migrant and refugee issues" has been considered, following the suggestion of Voicify, a European self-representative structure for organizations led by young people with lived migration experiences.

Thus, the concept of lived migration experiences of **YREMASUD** (Young Refugees, Exiled, Migrants, Asylum Seekers, and Undocumented Migrants) is taken into consideration when mapping these different organizations and their levels of implications. In this sense, any organization that strategically deals with one of these issues has been considered a potential candidate for receiving the MYCOMM Training Programme.
